15:37:42 From Janeth Sanchez to Everyone:

@Farrokh Alemi (George Mason Univ) -how can we provide
feedback to participants in all of us who wish to receive feedback
from our research.- Currently, our program does not allow for
researchers to re-contact participants as a way to protect their
confidentiality; However, our program has a newsletter that goes out
to all participants where we highlight innovative research as a way to
let them know how their data is being used and the findings from such
research.

15:37:52 From Janeth Sanchez to Everyone:

Reacted to "is the information f..." with !

15:37:53 From Janeth Sanchez to Everyone:

Removed a ! reaction from "is the information f..."

15:39:20 From Janeth Sanchez to Everyone:

Replying to "is the information f..."

We have found that the average length of EHR data we have is 9
years from our participants. So participants will give us permission
to access their data and the program will continue to have access to
their data until they change that status.

15:40:05 From JoAnn Smith to Everyone:

Replying to "To what extent does ..."

The enrollment of children in All of Us has been an important
goal of the program since its inception. We remain committed to making
this program open to all, so we can support health research across the
lifespan.

15:41:22 From Zhuo (Adam) Chen to Everyone:

I heard that there will be posterior weights available for All
of Us subjects -- could you elaborate on the timeline and methodology
used? Thanks

15:41:45 From Janeth Sanchez to Everyone:

Replying to "What is the spatial ..."

Our Data Snapshot website has map displaying where our
participants are from geographically: [https://www.researchallofus.org/
data-tools/data-snapshots/](https://www.researchallofus.org/data-tools/data-snapshots/)

15:42:24 From Janeth Sanchez to Everyone:
Replying to "What is the spatial ..."

If you scroll down to the map you can hover over each state and see how many participants are coming from that particular state.

15:43:35 From Janeth Sanchez to Everyone:
Replying to "Regarding EHR record..."

We currently do not provide EHR unstructured data.

15:58:19 From John Haller (NHLBI) to Everyone:

@Sommer Gentry – the review process at the Center for Scientific Review does not differ for NOSIs. For this reason, it is important to get the correct Study Section for reviewing your investigator-initiated proposal. (Assignment to a Study Section can be requested and Study sections can be found using the NIH Matchmaker tool I mentioned.) Special consideration of NOSIs may come into play post-review by Institute Program staff.

15:58:30 From Lucia Hindorff, NHGRI to Everyone:

@Farrokh Alemi (George Mason Univ) yes we support that area of research and methods development

15:58:41 From read.ai meeting notes to Everyone:
